Your wedding day is an expression of your unique love story.

Our personalised approach to capturing your day with images, on film or both, ensures that your wedding tells a beautiful story for all eternity.

WEDDING

PHOTOGRAPHY

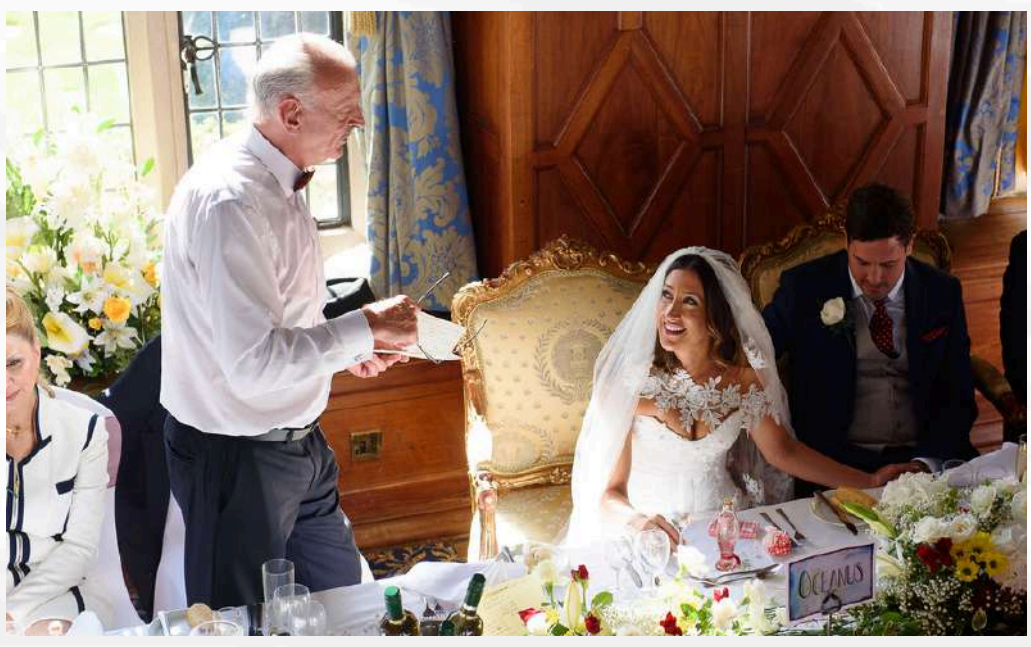

Wedding photography captures the soul of your celebration, preserving the intricacies, emotions, and connections. Through intimate shots, it immortalizes the essence of your love story, creating timeless visual poetry.

WEDDING

VIDEOGRAPHY

A wedding video is a cinematic journey, encapsulating intimate moments, shared glances, and heartfelt exchanges. It preserves the essence of your love story, crafting a timeless narrative that unfolds with emotion and authenticity

whether it is a small amount of coverage or the entire day, from bride preparations up to and including the evening first dance. We have got you covered.

www.petedavis-photography.com

WEDDING PHOTO & VIDEO

Why not have both. Photography is about capturing an instant second in time like a smile, a tear or simply, a beautiful captivating moment, while videography adds a dynamic narrative in real time. Together, they create a full comprehensive legacy of emotions, details, along with the magical memories and journey of your wedding day.

Your wedding day marks the union of two souls, a celebration of love's triumph. It's a unique chapter where dreams merge, promises are sealed, and a lifetime journey begins together.

Our Prices

We offer a range of beautiful photography and videography collections. Couples can choose from a variety of affordable options. From £570 for part day coverage, right up to £1990 for full photo and video coverage by two experienced professionals, a photographer and videographer who are there from bride preparations right through to just after the first dance. A full list of prices and details can be found on the next page or on our website at
